

REFINERY GRADE GASOLINE TREATMENT

For Ethanol and Regular Blends

PRI-G is a super concentrated, complete fuel treatment that improves any type of gasoline, enabling it to perform to maximum potential. **PRI-G's** industrial strength, *enhanced thermal stability chemistry* reacts with fuel upon contact, and provides multiple benefits:

- Engines perform better and last longer
- Engine power increased and fuel economy realized
- Fuel system and engine deposits prevented
- Extends fuel storage life, restores degraded fuels
- Hesitation, knocking, and pinging reduced
- Contains no dangerous water emulsifiers

Improved Engine Performance – **PRI-G** works chemically within gasoline to improve the combustion process. Improved combustion means improved engine performance. You will realize *increased power from your engine*. At the same time, you will enjoy *greater fuel economy*. **PRI-G** reduces the hesitation, knocking, and pinging that is common in gasoline engines. It is also extremely effective at cutting harmful emissions. Smog tests are no longer a challenge.

Reduced Maintenance Costs – **PRI-G's** proprietary, refinery-grade chemistry is unsurpassed at preventing carbon deposits and fuel system fouling. Your engine will remain cleaner and last longer, which means maintenance costs are significantly reduced. Keep your car, boat, or RV in great shape for years to come!

Keeps Fuel Fresh and Ready To Use – It's a fact: fuel ages quickly! No matter how soon you use the gasoline you buy, it will have aged in your fuel tank by the time you use it; for that reason, you can't afford to be without **PRI-G**. **PRI-G** keeps gasoline fresh. In fact, by treating the fuel annually with **PRI-G**, you can keep it fresh in storage for years! You'll be assured a fast start for your engine next season, or whenever you use it next. Those operating a generator on a periodic basis are especially benefited by **PRI-G** use – when it comes time to run that generator, it's fuel will be fresh and ready to go! If your fuel has already aged, **PRI-G** can still help. Tests have shown where **PRI-G** can restore aged fuel to refinery-fresh conditions.

Super Concentrated – **PRI-G** is super concentrated, treating fuel at a 1:2000 ratio. This means **PRI-G** is extremely cost effective to use. Get the most out of your gasoline for only pennies a gallon!

Safe To Use – **PRI-G's** *enhanced thermal stability chemistry* works within the fuel instead of altering it, which means the product is completely safe to use. Fuel specifications aren't changed, so engine warranties are not voided! **PRI-G** is safe and effective in both four stroke and two stroke engines. Use **PRI-G** today to get the most out of your gasoline and your engine.

Bottle Size	Gasoline Treated
16 Ounces	256 gallons
32 Ounces	512 gallons
1 Gallon	2,000 gallons
